

Metal Decorating Industry Two Piece Beverage Can

As a major urethane/rubber roller supplier since 1968, Finzer Roller offers a complete range of decorator products for all major makes and models used in the beverage can industry. With today's high-speed, high-volume production demands, Finzer Roller knows what it takes to keep your business running at maximum output. Our uniquely formulated compounds achieve high quality printing results at cooler running temperatures for longer roller life.

Products – available for most makes and models

- Inker Rolls
- Over Varnish/Base Coater Rolls
- Bottom Varnish Rolls
- Applicator Sleeves
- Pre-Spin Rings
- Anilox Rolls
- Non-Stick Release Coatings
- **NEW Easy-Fit™ Sleeve System***

Specialty Compounds

- **Super-Can™**
 - ◊ Excellent cut and wear resistance
 - ◊ Industry standard for ink transfer
- **Tuf-Can™**
 - ◊ Excellent heat and wear resistance
- **Tuf-Can II™**
 - ◊ Superior ink transfer and print quality
 - ◊ Exceptional wear, oil and solvent resistance
- **Ultra-Can™**
 - ◊ Excellent wear resistance and print quality

*Patent Pending

Capabilities

- OV/Base Coaters/Bottom Varnish rolls can be recovered or ordered new
- Durometer range of 5A to 70D
- CNC Equipped In-House machine shop
- Dynamic Balancing
- Precision grinding/grooving

Metal Decorating Industry Three Piece Can

Products

- Rubber Rollers
 - ◊ New ◊ Recover ◊ Regrinds
- Chrome Rollers
- Press Rollers

Makes & Models

- Crabtree
- Mailander
- LTG
- Wagner

Compounds

- Customized Rubber & Poly-Urethane
- Proprietary Specialty Compounds
 - ◊ SuperCan™ ◊ TufCan™ ◊ TufCan II™ ◊ UltraCan™

Capabilities

- In-House Machine Shops
 - ◊ Journal Repairs ◊ New Cores
- Computerized Grooving
- Dynamic Balancing

Non-Stick Coating Solution

We offer a permanent non-stick coating solution to eliminate ink and coating contamination and decrease downtime. Our non-stick barrier reduces the need for strong solvents, repeated scraping, and extra manpower to effectively clean your machine parts.

Most Common Applications

- Ink/Coating Pans
- Splash Guards
- Rollers
- Seal Bars/Blades
- Doctor Chambers

Coating Characteristics

- Temperature Resistance (500°F)
- Flexible (coating is baked on and will not crack)
- Chemical Resistance (1-14 on PH scale)
- Long Lasting (3-5 years of life in most applications)
- Non-substrate Specific (able to coat stainless, aluminum, steel, etc.)
