

Film Tensioning Brush

Finzer Roller offers an effective product to aid in tracking and flattening web products in the film industry. Our **Web Tensioning Brushes** are designed with a Fineset Nylon Bristle which effectively flex under light film loads keeping the web flat and tracking correctly. These brushes replace standard steel idler rolls, grooved rolls and spreader rolls. They are installed just before converting, printing, coating, laminating and rewind operations. Feedback from our customers have been so positive these brushes are a must for your film line!

Film Tensioning BRUSH

- Custom Built for *any* Film Line Application
- Extremely Efficient in Tensioning Tracking and Flattening Web Products
- Reduces Web Slippage, Loose Alignment and Air Entrapment
- Easy to Retrofit & Install
- Cost Effective

Used in Multiple Locations throughout a Film Line
